

CW Stick

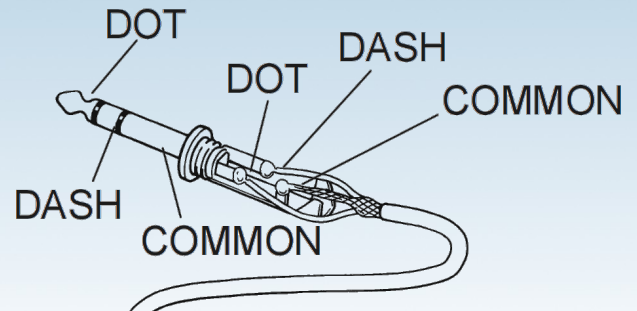

Ver. 1 – Order code CWS14001

- Low cost, light and easy to use electronic keyer for Morse code operations.

- No mechanical parts, no mechanical contacts, FET based switches: touch with your fingers to close the contacts.

- No power supply required: it uses only the signals for the dot and the dash coming from the radio.
- It works with all the radios that require a switch to ground to generate the dot and the dash (ex. FT-817, IC-7000 etc).
- Size - 100 x 19 x 2 mm
- Weight - 6 grs + cable
- Cable and connector - 60 cm
- 3 wires with 3,5 mm 3 contacts jack
- CE FCC compliance
